PROFESSIONAL OBJECTIVE

A software engineering position in the Colorado Front Range area.

EDUCATION

Bachelor of Science, Computer Engineering

University of Wyoming, Laramie, Wyoming

May 2009 - May 2015

EXPERIENCE

Language I/O, Full Stack Developer

Cheyenne, Wyoming

May 2015 - October 2016

Language I/O operates a service that large companies can use to translate help articles and support cases to different languages. This allows companies to expand to other regions without hiring dedicated translators. Most of this is done with a Java server application on which I worked.

- Worked in an agile development team tasked with maintaining and improving an enterprise Java application using technologies such as Glassfish server, MySQL, J2EE, JPA, JSP, and JavaScript.
- Maintained, implemented, and designed REST APIs
- Utilized Java persistence libraries and MySQL to store new data
- Developed asynchronous web pages using jQuery

Cheyenne Technology, Software Development Intern

Cheyenne, Wyoming

April 2013 - August 2014

Cheyenne Technology designs PHP-based web pages for various local clients. The Concrete5 CMS is used.

- Updated websites for clients
- Fixed problems in Java support software
- Worked effectively from a remote location

Ark Regional Services, Direct Support Staff

Laramie, Wyoming

May 2012 - August 2013

SKILLS

- Languages: Java, C++, C#
- Web/Scripting: JavaScript, CSS, HTML5, Python, Linux shell (bash)
- Middleware: JPA, Hibernate, JDBC, Spring MVC
- Other: MySQL, Maven, Git, SVN

PROJECTS

- Android app for controlling TV with remote infrared blaster.
- Home control system
- Various small Android puzzle games

HONORS

- Trustee's Pride Scholarship, University of Wyoming
May 2009 - May 2013
- Hathaway Honors Scholarship, University of Wyoming
May 2009 - May 2013
- National Society of Collegiate Scholars
- Eagle Scout
May 2009

MEMBERSHIPS

- Associated Students of the University of Wyoming (Student Senate)
